EXPERIENCE

Adglobal360 India Pvt Ltd

Gurugram, Haryana

Software Engineer I

11/2024 – Present

- Develop and maintain scalable web and mobile applications using **React.js, React Native, Next.js, TypeScript, and JavaScript** for campaign management and analytics platforms.
- Build reusable, modular, and maintainable UI components using **React Hooks, Redux Toolkit, React Query, Zustand, and Context API**, improving development efficiency and code quality.
- Develop responsive and cross-platform user interfaces for web and mobile applications, ensuring consistent user experiences across devices and screen sizes.
- Integrate RESTful APIs and third-party services while implementing efficient data fetching, caching, optimistic updates, and error handling strategies.
- Optimize frontend performance through lazy loading, code splitting, memoization, virtualization, image optimization, and bundle size reduction techniques.
- Implement accessibility standards (WCAG), SEO best practices, and responsive design principles to improve usability and search visibility.
- Collaborate with Product Managers, UI/UX Designers, QA Engineers, and Backend Developers in Agile/Scrum environments while participating in code reviews and release cycles.

Adglobal360 India Pvt Ltd

Gurugram, Haryana

Software Developer Intern

05/2024 – 11/2024

- Developed responsive web applications using **React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, and Material UI**.
- Built reusable UI components, dashboards, data visualization modules, and complex forms using React.js best practices.
- Implemented state management using Redux Toolkit, React Query, and Context API to manage application and server state efficiently.
- Integrated REST APIs and authentication workflows while implementing loading states, validation, and error handling mechanisms.
- Utilized Git, GitHub, Postman, Jira, and Agile methodologies for development, testing, debugging, and deployment workflows.

Upwork

Remote

Freelance Software Developer

07/2023 – 01/2024

- Developed responsive web applications using **React.js, Next.js, TypeScript, HTML5, CSS3, Tailwind CSS, and Material UI**.
- Built reusable UI components, dashboards, data visualization modules, and complex forms using React.js best practices.
- Implemented state management using Redux Toolkit, React Query, and Context API to manage application and server state efficiently.
- Integrated REST APIs and authentication workflows while implementing loading states, validation, and error handling mechanisms.
- Utilized Git, GitHub, Postman, Jira, and Agile methodologies for development, testing, debugging, and deployment workflows.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend Frameworks & Libraries: React.js, React Native, Next.js, Angular.js, Vue.js, Redux Toolkit, React Query, Zustand, Context API, React Router, React Navigation, Expo

UI Technologies: Tailwind CSS, Material UI (MUI), Bootstrap, Styled Components, Sass/SCSS, Responsive Design, Mobile-First Development

Frontend Architecture: Component-Based Architecture, State Management, Atomic Design, Progressive Web Apps (PWA), Single Page Applications (SPA)

API Integration: REST APIs, GraphQL, Axios, Fetch API, JWT Authentication, OAuth2

Testing: Jest, React Testing Library, Unit Testing, Integration Testing, End-to-End Testing
Mobile Development: React Native, Expo, React Navigation, Push Notifications, Deep Linking, Cross-Platform Development
Performance & Accessibility: Code Splitting, Lazy Loading, Memoization, Bundle Optimization, Web Accessibility (WCAG), SEO Optimization
Tools: Git, GitHub, Postman, VS Code, Figma, Jira, Agile/Scrum, Chrome DevTools
Core Concepts: Data Structures & Algorithms, OOP, Design Patterns, Responsive Design, Cross-Browser Compatibility, Frontend Performance Optimization

PROJECTS

- E-Commerce Platform** | *React.js, React Query, Redux Toolkit, Tailwind CSS, Razorpay*
- Built a scalable e-commerce platform using **React.js, Redux Toolkit, React Query, and Tailwind CSS** featuring product catalog management, shopping cart functionality, and secure checkout flows.
 - Developed reusable component libraries and responsive user interfaces optimized for desktop, tablet, and mobile devices.
 - Implemented authentication flows, protected routes, payment processing using Razorpay, and efficient API integration strategies.
 - Utilized React Query for server-state management and caching, improving application responsiveness and reducing unnecessary network requests.
 - Improved performance through lazy loading, code splitting, image optimization, memoization, and bundle size optimization techniques.
 - Implemented accessibility standards, SEO best practices, and responsive design principles to enhance usability and search visibility.

EDUCATION

Guru Jambheshwar University of Science & Technology <i>B.Tech in Information Technology CGPA: 7.5</i>	Haryana, India <i>08/2020 – 07/2024</i>
Senior Secondary Education (12th Standard) <i>Science Stream Percentage: 95%</i>	CBSE <i>2017 – 2020</i>
